Swedish First Hill Expansion

As part of our current approved First Hill Master Plan Swedish is preparing for the much-needed replacement of aging facilities at our First Hill campus.

Swedish will make these improvements to:

- Replace structures dating back as early as 1925
- Provide the best care for a rapidly aging population
- Respond to unprecedented inpatient growth
- Meet the most current technology needs in appropriate space
- Support the safest, highest quality care possible
- Fulfill our promise to care for all those who need our services
- Utilize clinical space most effectively and efficiently

Extraordinary **care.** Extraordinary **caring.**SM
